About Jan. 1, 1846, I was so swollen that feed do move hand or foot. I was perfectly helpless—grew worse—was given up by my physicians and friends—and was told that all had been done which could be to save me.—About this time one of Dr. Vaughu's pamphlets fell into the hands of one of my neighbors, he purchased and sent me a bottle of the medicine; before I had taken it the bloating had very much gone down.
